INTRODUCTION

Cosmology is the science of
the Universe as a whole, a
treatise on the structure and
parts of the system of creatio

The title COSMOLOGY NEWSLINK
was formulated from the need
to fit together inter-related
subjects, plus news, which may
or may not have bearings on
each other and perhaps leading
to the answers. Or the
conclusions of some of them
if not all of earth's mysteries
in which case this magazine
has accomplished its mission.
Most of our title was suggested
by Mr. Patrick Dineen, of Co.
Kerry Ireland. We added the
LINK.

MY WORK

BY
LAURA MUNDO

Laura Mundo has been active in U.F.O. research for many years, and has written numerous books, and magazines on the subject. Her latest was EMERGENCY PRESS.

THE EDITOR OF COSMOLOGY NEWSLINK, EDWARD HARRIS, HAS REQUESTED A LITTLE BACKGROUND CONCERNING MYSELF, AS A CORRESPONDENT TO THE MAGAZINE, SO HERE GOES:

As a divorcee with two teenage sons, I found myself into full-time voluntary civilian flying saucer research work in December of 1953, when I was part of a committee that brought George Adamski from California to lecture on his experiences with flying saucers and his meetings with the space people, Orthon, Firkon, Ramu.

It meant selling my belongings, with no income, to keep the saucer information going out by means of a news letter and correspondence to those who saw me on the platform and on TV with Adamski as I further promoted his lectured about the county, together with Desmond Leslie, Major Donald Keyhoe, Capt. Edward Ruppolt, and others.

I began to lecture, myself, also, on a contribution basis, travelling all over the U.S. and into Canada, to schools, churches, science groups. My home in Dearborn, Michigan became a public information bureau as countless hundreds of people found their way to me, some out of town, who had seen saucers and had no official office to which to turn,

for answers. Some on the verge of hysteria.

In September 1954, a saucer came over my home, which I have written up in my saucer autobiography, Flying Saucer Up-Day! (Available through Laura Mundo Enterprises). It was like the Adamski bell-like Venusian saucer. In September 1954, also, a radio message was received on short wave radio sent to me from a spaceman, to tell me "they were aware of my efforts to help prepare their coming."

An electronically-controlled electronic disk came over the house one night in September 1954, also and stared me in the face, picking up my personal frequency-vibration and I would never be able to "lose" them after that. Other sightings came later, also in FSUD.

Twenty years later, after constantly writing to newspapers, radio/tv stations, magazines, to bring out the saucer sightings, the huge flap in Missouri occurred when "two clawed creatures-space robots as far as I am concerned, took two Earthmen aboard their spaceship and examined

them..the sightings in papers continuing then as they happened! I put my public newsletter, The Emergency Press, to bed, although I continue my private newsletter-in journal form, the poop sheet, as planetary developments or history continues, to those people who help me to get out my literature and for which we began to charge, in order to continue to get out some FREE literature, still to those who can't afford to pay.

The Gallup Poll on December 10, 1973 (AP), said 51% of the public now believes in UFOs; THE DAY I HAVE BEEN WAITING FOR: NON-BELIEVERS, NOW, IN THE MINORITY!

I have time, therefore, now, to write a novel, 'Belmont', which the public can better take than the facts..concerned with the preparation for the last days of this kind of civilization on the planet when the sunspot acceleration comes to a climax and then settles down; the reason the space people are coming, to try, I understand, to remove those people whom they can before then. When the still active 21st 11-year old sunspot cycle "ends" in September 1975..WHILE THE PRESENT ONE #20 (since they have been recorded for the past 200 years). The U.S Astronauts reported from SKYLAB, in orbit

about the Planet (UPI Sept 6 1973) they had seen TWO flares in ONE say "in an ordinarily quiet time for the sun..giving them some answers to questions they had about the accelerating sun spots for the past 16 years..but not informing the public.(See Sky and Telescope Magazine in the American Public Libraries), for charts concerning the past years of acceleration of sun spots, creating planetary extremes in weather, natural catastrophies and in man, woman's minds' and bodies. (See Mental Health Magazine- Oct 1971). Including psychic developments (see Sex and the Scientist and the Mystic by Laura Mundo) to the point of endemic psychic sickness.

ADAMSKI told me, when we first met that Orthon had said the space people told him, (as one of our most sensitive psychics) they do not use psychic means with us, knowing the unstable state of our minds, as witness our global society). Anything else only appeals to our vanity and can lead us down the wrong and deadly path, come the final moments of doubled up-sun flares and or before them.

Science is getting in to the

mental levels of which the energies used to propel the saucers are, also, as witness the Kirlian photos, Popular Photography, magazine-Feb-1973. And that's THE SAFEST WAY TO GO!

Getting into anti-gravity research is distracting, ~~also~~. I believe we will not be allowed by the space people (and God beyond them, or pre-atomic being, as I call it) ..to latch onto the energy to propel a manned-womanned spaceship, yet, limitlessly, under control, into space, or only take our wars along with us and limited money system that creates them and the poor and temporarily limits God: First things first.

I find the articles in Cosmology Newslink interesting even though I don't agree with all of them. And appreciate their using me as a correspondent, even though they do not agree with me!

Say "Hallo" To Brinsley Le Boer Trench. We used to be correspondents at the beginning of saucer research when individuals in it had time to write to each other, rather than only through saucer mags.. all all accelerates. "Hold tight, loosely" and "Hold loose, tightly!" Laura Mundo

Laura Mundo can be reached at: Box 142, Dearborn Heights, Michigan, 48127. U.S.A.

*Footnote: Articles in CNK are as scientifically accurate as information permits, and therefore may or may not agree with everyone. Likewise Articles in Emergency Press. It does seem that Laura Mundo may be a natural philosopher, and her insight into the grave nature of sunspots and activity on the sun is now proving to be accurate. There are however scientifically minded people who will disagree with Laura over certain points. Whether science be blind, or likewise Laura, our policy is TIME WILL TELL who is correct, meantime we continue to publish BOTH sides of the arguments, with out bias on either side. Articles appearing in CNK are not necessarily the views of the editor, and while I am on that subject, I must mention LIGHT CENTRES and other type of groups of similar nature. While I agree they do a valuable service to mankind, I personally do not agree with their supposed source of information until once again TIME WILL tell if THEY are right. CNK will not exchange with these centres in future, and many thanks for past help. Good Luck in your work. Editor

MISCELLANEOUS NEWS

Here's a letter from Mark Dulieu of Garden Drive, Fairport, New York. America:-

"About a week ago I watched a show on the television called, "In Search of Ancient Spacemen" It mainly talked about the theory of people from other worlds coming here on Earth, and it even said that we might be descendants of them and they are coming back to see how we have progressed. The show also mentioned the Bermuda Triangle which is in CNK. It said that two planes went out there and one plane radioed back to the other plane telling him to go back because he saw something weird, and a few minutes later they lost contact with the plane.

Last Wednesday, my brother Paul and I went to the Rochester Planetarium, The Strasingbergh Planetarium. The show was called "Explorers from the Stars" It was about UFOs.

Mark...PS. Mariner 10 came within 3,585 Venus's Surface a few days ago and now it's on its way to Mars.

Dated Dec. 26th 1973
I stuck in a story my friend wrote: THE NIGHT BEFORE

LIFTOFF

BY Charlie Hixon & Mark
It was night before lift off

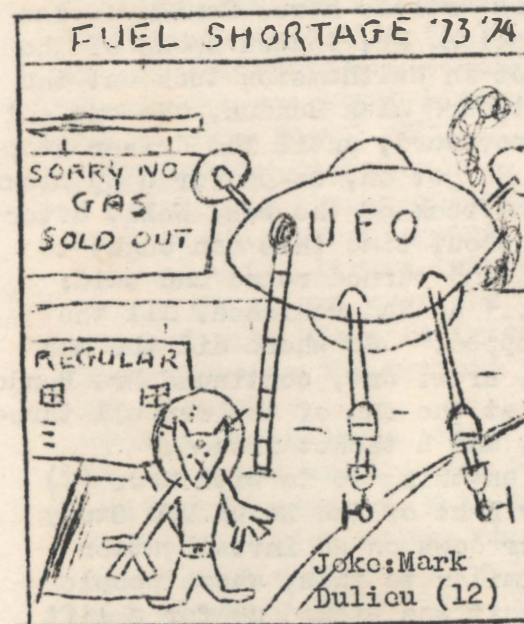

and all through NASA the control men were working without doubt. The rocket was set on the launching pad and with care and hopes that good luck would soon be there. With the astronauts snug in their spaceship, while visions of Mars danced in their heads. With their mother's and father's all snug in their beds as they watched the countdown on T.V. Then WHAT to the astronauts wondering eyes, do they see?

They see a miniture UFO and eight tiny cylinders, with a little old driver so lively and quick. I knew in a moment it must be a silver Martian.

More rapid than rockets he came and whistled and shouted and called the cylinders by name. Now Sizzler, Comet, Meteor, Starfire, Jupiter, Gyro, Cosmo, Zorow, to the top of the rocket to the top of it all. Now dash away, dash away, now dash away all. As the astronauts drew their heads and turned around, down the escape came the little green Martian, he was dressed in green from head to his feet and his clothes were all tarnished with grease and soot. He had a greedy smile and a square belly and it shook like a bowl full of green seaweed, He spoke not a word but went straight to his work, breaking computers and pulling out plugs

and wires. Then laying his finger aside nose up the escape hatch he rose. As he flew away he exclaimed BEWARE OF THE MARTIAN ARMY.

*This story is of course a fairy tale, and was only included to encourage Mark, Paul & Charlie, to take an active interest in space phenomena. Well boys, your items have been included at last. Let us hope that the next story you send will be the REAL thing, as this is what CNK has been set up to find out. (Mark and Charlie are members of the Boy Scouts of America). (12 YEARS OLD)

Discussions on Ufological topics

THE MYSTERIOUS CASE OF THE PASSENGER WHO WASN'T THERE??????????

By The Editor

This experience was told to me by a bus driver from Walthamstow Bus Garage, Walthamstow, London, England. It went like this:

It seemed, the story started one night, on this driver's route or his friends etc, but what happened was this, Your editor Ed. Harris boarded the bus in Hackney, London area, and got talking to the driver, Mr. Alan Bendon. It transpired that I thought I had seen SKYLAB pass over at the time, remarked this to the driver who mused "wasn't a UFO? Was it?" Amazed at that, we got talking about weird phenomena, including a story about a UFO that is believed crashed in the sea (SOMEWHERE) and giving off 'rays' well this is indistinct, like this article here. Coming to the unknown in due course of conversation, Mr. Bendon spoke of the night one of the crew at the depot in Walthamstow took out the last bus of the night. Well, continued Alan Bendon, "No one got on, and that route goes past a graveyard, until the driver stopped to pick up a lone passenger. He got on, asked for a 5p ticket and one was issued. He went to the back of the bus. Well, after a bit, the driver thought it was about time this man ought to have got off, but when he stopped and turned round and said: 'Where do you want to get off?....' he had vanished. All the time on route the bus had not stopped." So where did the man go? This happened to three of the crew. And, continued Mr. Bendon "when they checked their money up at the end of the run all three drivers found they were 5p short, and a ticket issued."

Although this has or has not got anything to do with UFOs (?) I passed the information onto Roy Lake of the Essex UFO Study group, who at once sent one member down on an investigation mission. There have been cases similar to this, where people namely perhaps a man in a black suit was picked up for a lift in the USA, he too vanished from the back seat of a moving car. This story will be concluded on completion of the investigations as the Essex UFO Study group is determined not to sit this one out.

SIGHTINGS ^{UFO}

WORLDWIDE

LATEST REPORTS OF SIGHTINGS OF UNIDENTIFIED FLYING OBJECTS STANSTED England:

Travelling home at 1.20am in the morning, Ed. Harris noticed a peculiar ball of light fall silently in an arc out of a pitch black sky, and grow in size and sank, like an old silent movie, onto Stansted Airport runway. No investigation was carried out due to many reasons. Probable cause(s) ball lightning, otherwise quite unexplainable and incomprehensible. Sighting was on 22nd April 1974.

HALIFAX, England:

Eleven year old Richard Stolly has reported the sighting of a UFO flying south over Halifax. Richard of 14, Heath Ave., Halifax, saw the UFO at about 6pm and describes it as long and thin with a thin wedge on top. It was in sight for about 2 minutes, travelling slowly before it vanished behind a cloud. Source: South Lines UFO Study Group via a Halifax Paper, late Sept. 1973.

PETERBOROUGH, England:

A mysterious flying object hovered over Peterborough skies last night. Several people watched as the flying craft, with red and white lights drifted gracefully across the sky from Norman Cross and over the Ortons. 19-year-Old Andrew Wright watched with his girl friend Jane Howe and her mother Mrs. Betty Howe as the mystery craft hovered over the Norman Cross Hotel.

"There were 2 large white lights at first," Said Andrew of Cherry Orton Road, Orton Waterville, "they went out and 4 or 5 red lights came on. When the lights went out, there seemed to be a greyish square shaped object behind them. I have never seen anything like it before and I am pretty convinced it was a UFO." The UFO was also spotted by a housewife and children in the Ortons as it came from the direction of the A1.(road?) and on Wednesday a motorist saw 2 white lights in the sky over Derpings. (Source: Peterborough

Evening Telegraph) Comment on this sighting by the South Lines UFO Study group: Almost certainly aircraft landing lights and Harrier Jump-Jet from nearby RAF Wittering. Date: 9.11.73

LINCOLNSHIRE, England:

Wood turner Mr. John Spalding claims he sighted a UFO hovering above Washington on Monday night (12.11.73) From the garden of his home at 1, Lincoln Road, Mr. Spalding 33, spotted a mysterious bright light moving across the southern sky from the direction of Bardney at about 10.30pm. Silently, the star-like object flew towards Washington at the speed of a jet, paused, moved a little way towards Lincoln and then stopped. It was still there when Mr. Spalding gave up and went to bed at midnight, he says. He studied the light through binoculars, but the object was too high in the sky to make out an outline. "All you could see was a bright light. It was much too high for a plane and anyway they have flashing lights-so I thought it was a satellite, until it stopped dead! People may think I'm barmy, but I know what I saw. The only explanation for that object is that it came from some intelligence outside this planet." Mr. Spalding says his wife and parents who live nearby also saw the moving light. Now he wants to hear from anyone else who spotted it. He has twice before seen UFOs. The first, when he was 14, was a grey cylindrical object, which was also seen by his mother above Portland Street, Lincoln. Three years ago he saw a moving light, similar to Monday's sighting, above Washington. Since his first sighting he has become a keen skywatcher and a firm believer in UFOs. (Source: Lincolnshire Echo via the South Lines UFO study group Newsletter) DATED: 14.11.73

*FORMER astronaut John Young says the odds are that UFOs do exist. Young, a member of the Apollo 16 crew said: "It is mathematically improbable that there aren't other life sources in the Universe. DAILY EXPRESS 26.11.73 via SLUFOSG.

USA:

Latest to report seeing a "Saucer" is John Gilligan, Governor of Ohio. He said it was amber-coloured and gave off a vertical beam. (Source: Daily Express. 19.10.73 via SLUFOSG).

ENGLAND:

(HEADLINE): CONCORDE IN UFO RIDDLE source, Daily Mirror 1-2-74 via R. Blonville, London:-

A "FLYING saucer" has been spotted from Concorde, scientists revealed yesterday. It was photographed on a mission to observe a total eclipse of the sun over Africa last June. Enlargements

of pictures showing an unexplained luminous dot indicated that the "dot" was 650ft across.

After months of study, French government scientists have now officially listed the "dot" as an unidentified flying object.

SCOTLAND:

Friday February 1974 . UFOs seen by our reporter is under review (?) also by the Essex UFO Study group.

MISSOURI. U.S.A:

September 14th 1973. Two soldiers from Ft. Leonard Wood, Mo., saw a bright glowing sphere at tree top level just off the road. The object paced their car for about a half mile, turned gained some speed and disappeared.

SOURCE: SKYLOOK October 1973.

The editor of SKYLOOK Mrs. Norma E. Short added, in the same issue: "We have just received a news clip from the "Spartanburg Herald-Journal," Spartanburg, S.C. in which George Fawcett well known UFO Lecturer, is quoted as saying the United States Air Force has a regulation that makes it an offense punishable by 10 years in prison to report a UFO while in uniform. If this is also Army policy, it explains why the soldiers who reported the sighting did not give their names. Many investigators have run into that "stone wall" in attempting to obtain any information re UFOs from the Military."

Ron Markwick of the Essex UFO Study Group said also at a meeting of the group in April, that he knew of this regulation, and added that for "OBJECTS THAT ARE SUPPOSED TO BE NON-EXISTANT THERE'S QUITE A LOT OF FUSS." (or words to that effect).

ROMANIA: Book published in Romania on UFOs cites this case:

September 19th 1968. At 3.30pm an unusual object "fixed itself" above the centre of the city. The object had a polyhedral shape of very huge dimensions (the lower section was at least fifty metres long) IT came rapidly over the city of Cluj, and remained there for four hours without any movement at all. It was seen by almost everyone living in or near Cluj. (to be followed up perhaps in later issues).

CANADA: Don Glover, of Osage, Sask., Canada sent this report to SKYLOOK: Colgate area residents reported seeing strange activities in the night sky Sunday from 9.30pm until midnight Roy Bell, one of the witnesses, said: "They weren't falling stars, as there were no streaks and some of them were manoeuvring

in the sky. They were a pure white light and would fly at an enormous rate, then would slow down to a stop, then change directions. They criss-crossed in flight and at times rode parallel to one another." As many as 13 of these objects were seen by persons from the Colgate area at one time. There was no sound, but there was interference on the telephones in the area during the period. Credit: SKYLOOK

NEW ZEALAND: June 12 1973

Mr. C.T. East saw at 5am, a brilliant green spherical body rushing out of the sky with quite a long streamer of light behind it. Over and gone in 5 seconds. He was facing SSE; the object crossed his line of sight from right to left, heading downwards towards the Tararua mountains east of Palmerston North.

Possible explanation: It might have been a piece of man's space hardware returning to earth. Mr. East is an ex wartime R.N.Z A.F. pilot and has flown Top Dressing planes for six years and helicopters also. He had not seen anything of this nature previously. (SKYLOOK)

Makino near Feilding NEW ZEALAND: 12 JUNE 1973

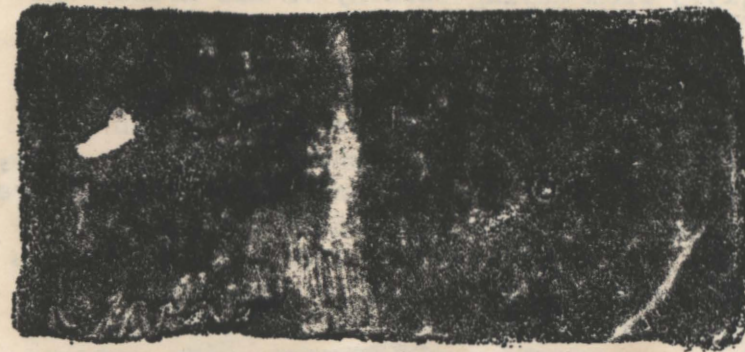

Mr. G. Bennett and his assistant driver were bringing a goods train South on the early morning. They were just passing through Makino north of Feilding, heading for Palmerston North and South. Time was 5.05 am. Suddenly Bennett had his attention drawn to an unusual sight. A brilliant green cigar-shaped body shot across his line of sight, was lost to sight behind the bulk of the engine ahead of him and then became visible to his partner in the cab as it sped away to be lost again behind tree-line obstructions. Describing the object, Bennett said it was bright green, had no tail "but appeared to be losing bits of itself from the rear." The two witnesses estimated the speeding object was in view for a full three seconds. They had not seen anything like it before. It was descending in a shallow curve from right to left. (Credit Skylook) This report is very similar to the first.-ed.

Japan: Cosmology Newslink has just made contact with Japan and the following information has been sent by UFO NEWS, editor Yusuke J. Matsumura, of CBA INTERNATIONAL-Yokohama Japan:

UFO OVER HOKKAIDO Sapporo-people in Hokkaido are talking about strange unidentified flying objects which hovered in the dark sky last weekend. At around 9 pm. Friday, crew members of a cuttle-

fish boat off Yoichi town, Hokkaido, caught sight of a bright orange-coloured object the size of the moon in the sky to the north.

At 8.30 pm on the next day, junior high school students reported witnessing four flying objects lingering and flying like orange balls in the sky. On Monday afternoon, a police man in Hakodate at the southern tip of Hokkaido reported his sighting of a red object with black smoke falling into the sea. As there was no accident involving aircraft at that time, the mysterious object seen at broad daylight was believed to have been a meteorite. Shown in the photo at left is the flying object and the two at the right are ordinary stars. Photo was taken with an exposure of 10 seconds Saturday. Source: Mainichi Daily NEWS, Saturday, September 1, 1973-Japan. Below, the photo of the object

UFO Over Hokkaido

U. F. O Sighted
OVER BANGKOK
Bangkok (AFP)---
An Unidentified
flying object (UF
was reported seen
in downtown Bang-
kok Thursday night
Christina Leow R-
kwong 13, told
press she saw the
UFO in a half vir
shape with lights

going on and off above it, passing behind two modern buildings located in Sukhumvit Avenue. Lisanette Hanson who was with Christina also said she saw the same UFO and its small square windows with bright lights inside. Christina who saw it first said the UFO went very slowly and smoothly without making any noise behind the buildings and disappeared heading towards the port of Bangkok. Both are students. They said they believe what they had seen was a flying saucer. Two reporters of a local newspaper said they saw a UFO with two blue flashing lights and in between them a flashing red light as they were riding on Sukhumvit at about eight Thursday night.

東京にもやって来た!

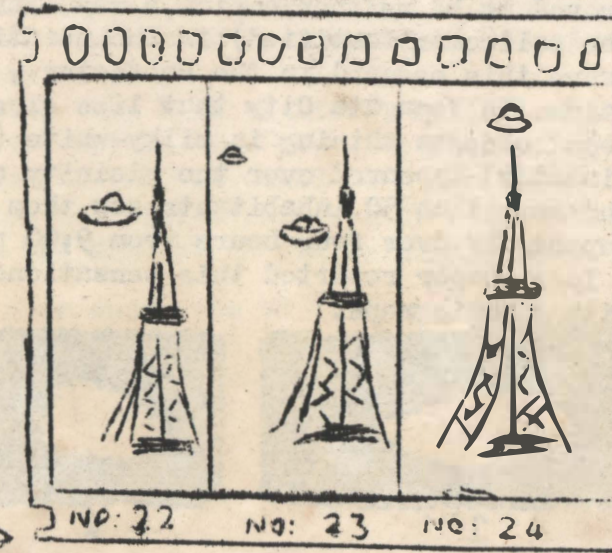

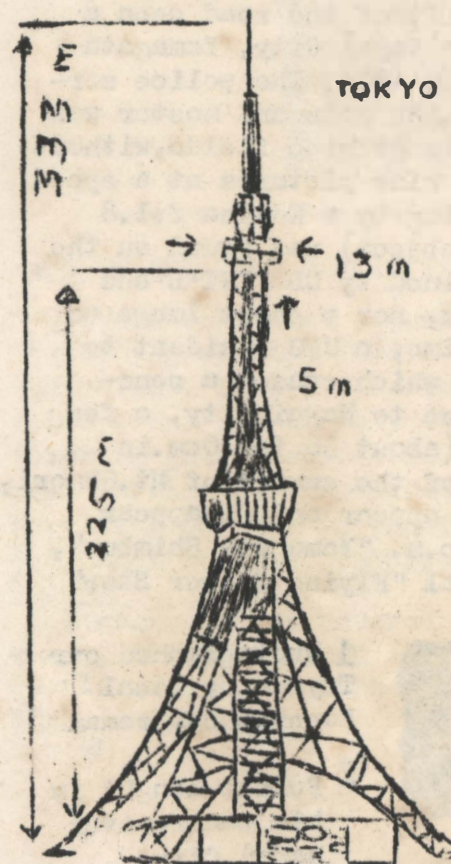

*** SAUCERS PHOTOGRAPHED OVER TOKYO TOWER!! ***

-This photos was appeared in the evening edition of a Japanese paper, the SANKAI SHIMBUN of October 29th, under the headline "FLYING SAUCERS COME UPON IN TOKYO TOO"-was taken by a high-school boy, Yoshiaki Kato of Minato-ward in Tokyo, at about 7.30 pm. of September 19, 1973 from drying balcony of his house. The paper reported that he wanted to take few shots of night scene of Tokyo Tower and it will be exhibit at cultural festival of his school. He took three photographs at 30 seconds exposure each, but he said, he never sighted such large mysterious objects apparently approaching over Tokyo Tower. At the same time, however, his mother saw it on the nearby road and some neighbours also watched them, and one of witnesses noticed their sightings to the metropolitan police department by dial-110 emergency call, is reportedly. (Camera: Canon FT-B with f 1.4, FD 50mm lens, Diaphragm 5.6, at 30 seconds ex.) *NOTE:-This is original prints from boy's negative)

16

Special Report from CBA International from Yusuke J. Matsumura Director, CBA INT'L: REMARKABLE UFO SIGHTINGS IN JAPAN
28th October 1973. 5-10 pale white objects, almost translucent, appeared over Toyama City, facing the Japan Sea for nearly three hours from 8.30pm on August 24, 1973. The objects were at first circling slowly, flying side by side in a long and slender stick-shaped form, or being broadened, or making a round formation flight, but they suddenly got up speed and disappeared somewhere in a straight line. While they were repeatedly doing the same, they suddenly stopped in the air, which caused a sensation for while, the "KITA NIHON SHIMBUN" a local paper reported. It was approx. 1,000 to 2,000m. in high and more than 300 people were baffled to watch the sky for a long time, Even a passing taxi drivers stopped his car to look up at the objects. The size of the objects was approx.

17

more than a crescent each, never the any birds, they said.

The next day, the local paper "Kita Nihon Shimbun" published a photograph of those mysterious objects caught in 250 mm-tele-photo lens by paper's cameraman M. Omokata at about 10.30 at the night. (Camera: Nikon F, with tri-x film) Meanwhile, such information similar to this rushed one after another to Toyama Astronomical Observatory for a few days. The paper said that it was examined whether or not it is the American Skylab coming near recently, but the time was different from that of the Skylab, so that the objects still remain unknown.

***UFO PHOTOGRAPHED OVER NAGAI CITY, NORTHEASTERN JAPAN!-**This photograph, showing a luminous object with a tail streaming and flying away from northeast to southwest in the sky, was photographed by a police sergeant Yoshiyuki Matsuda, chief of traffic section of Nagai Police Station, who was taking the scene of a traffic accident (on the left of the road seen a part of tipped car) that took place in Nagai City, Yamagata Prefecture, around 11:00 p.m., on July 9 1973. The police sergeant said the night was cloudy after the rain and no star was to be seen. The place was in the middle of rice fields, without illumination like neon-light. He took nine pictures at a speed of 1/60 and at f.5.6 with a flash, using by a Konica f.1.8 camera, and the light (this luminous object) was found on the first picture. (The negative was examined by CBA INT'L and proved to be neither a flaw, a ray leak, nor a ghost image as the policeman testified) In the meantime, a UFO incident to prove this occurred in the Prefecture, which caused a sensation. In Yamagata City that lies close to Nagai City, a few round objects shining in milky-white (about 30 to 40 cm. in diameter) appeared over the vicinity of the summit of Mt. Ohmori, and more than 50 inhabitants saw them appear and disappear repeatedly over four hours from 9:00 p.m. "Yamagata Shimbun", a local paper reported this sensational "Flying Saucer Show" with a photograph.

2 Police caught in his camera over Nagai City.

HANOI, N. Vietnam: UFO PHOTOGRAPHED OVER HANOI

Informed source disclosed that a glowing object as big as a truck appeared in the night sky in the heart of Hanoi, and hovered in one place for about 5 minutes, watched by hundreds of people, including the military personnel in autumn of 1967. The object was reddish-orange in colour and sometimes was emitting bluish-white lights from bottom edge. It hovered at an altitude of approx. 3,000 feet and vanished suddenly. There was no sound. (This picture obtained from an informed source of the North Vietnam) CREDIT: CBA INTERNATIONAL, JAPAN.

SPY IN SKY OVER HANOI? from ASAHI EVENING NEWS, SATURDAY, Sept 30

A mysterious object appeared in the clear blue sky over Hanoi ¹⁹⁷² today, attracting missile fire from the ground but apparently remaining motionless. It was spherical in shape and a luminous orange in colour, and was clearly at a very high altitude. Of the many theories put forward here to explain this object-supported by several foreign correspondents-was that it could be a new type of observation balloon to provide television pictures of activities in the Hanoi region. (SOURCE UFO NEWS JAPAN CBA International) CHINA:

A strange object hovered over outskirts of Kaifeng, Hunan province, China mainland on Oct 28 1961 and was watched by several people. Was photographed. (To be reproduced here soon) CREDIT UFO NEWS- CBA JAPAN.

ROY'S ^{UFO} GROUP — MEANS BUSINESS

BY THE EDITOR

IT IS USUALLY the general practise for newspaper reporters to call from time to time, on Mr. Roy Lake of 252 Parsloes Ave., Dagenham, Essex, England, and ask him if there is anything new in UFOLOGY in his area. Such was the case a few weeks ago when a reporter from the Dagenham Post visited Roy Lake and was told of new sightings of unidentified flying objects over Dagenham. Unluckily, or maybe luckily for Roy, he happened to mention the probability of spacemen being on earth among us. The resulting headline of "IS YOUR NEIGHBOUR A MARTIAN" aroused half of the residents of the area, and needless to say certain other gentlemen, who were definitely NOT from that area, but from a certain establishment known dearly to us as THE ESTABLISHMENT who had not heard of the world famous ESSEX UFO STUDY GROUP, and wanted to know more, out of pure interest and as members of the public.

The resulting flood of enquiries gathered momentum for the EURO-SP, when they held one of their first meetings to their surprise gained more members practically overnight. One such newcomer was Ron Markwick a resident Canadian, who has now also joined CNK as a special correspondent. From that moment on, Roy's new and powerful group, started to probe into the questions of WHY other groups have failed to find the source of the U.F.O. With this aim in mind Roy Lake visited the meeting of the British Unidentified Flying Object Association (BUFORA), to ask the vital question "WHERE ARE ALL THE SIGHTINGS GONE?" to which there seemed to be no complete straightforward answer. Is it therefore that sightings papers from witnesses, are gathering the dust in some long and forgotten filing cabinet, thrown away, or are they stored for reference in some Computer in a university somewhere. If the answer to both these questions is yes, then CNK also asks WHY? This is dead information, doing nothing

to solve the answers the whole world seeks. The Essex UFO Study Group, however is not out to destroy other people's work, for bickering among groups only delays the work of both. What is needed is to seek each other out and co-operate, something which I find is lacking with the former.

Not long afterwards, Roy, who has had the group in existence since around 1966, started making progress with yet another visit from the press. We reproduce it here (photos to follow of the group's activities and sightings next issue):

From THE ADVERTISER, May 3, 1974:-

HEADLINE: "SKYWATCHERS PROBE THE GREAT SPACE MYSTERY.

ARE THESE INVADERS FROM AN UNKNOWN PLANET? by Madeleine

Gill on the

UNIDENTIFIED flying objects have been the UFO SPOTTERS. subject of endless debate, speculation and high powered research. Sceptics may dismiss UFOs as "Pic in the sky".

But ~~however~~ much they scoff, the believers argue their case with facts, figures and information gathered over the centuries.

Barking UFO Study Group (*should be "Essex" Ed), was set up recently to further this fact gathering. Many members say they have seen UFOs, and a belief that the public should know all the facts about "ufology" inspires discussion and research into all local reported sightings.

Mr. Ron Markwick, consultant to the group is a 43-year-old Canadian. He has studied and worked in many scientific fields including radio, radar, and electronics. He says: "I first became interested in the Phenomena in my teens. No one believed me when I related how I witnessed a glowing, white floating mass, floating down from a clear, sunny sky. "But today, case histories of such phenomenal are listed—they are called fireballs.

"There are other types of unidentified flying objects. Some vary in size, being saucer or cigar shaped. They vary also in their characteristics.

"Some pulsate, or gyrate, and their speeds occasionally exceed anything man has made.

"The Egyptians named their flying saucers sun ships and sun discs.

"Our primitive ancestors left much information in pictorial form on the walls of caves.

"Today we have tracking stations, radio and radar, yet we still face this UFO puzzle.

" People who have seen UFOs include scientists, airline pilots, navigators, members of the church, police officers, and military personnel who are trained to be good observers.

"People from all walks of life are involved in UFO phenomena. So often people are hesitant to give facts for fear of being ridiculed or of losing a job in a high position.

"Considering the Americans alone have spent nearly one quarter of a million pounds on the UFO project it tends to indicate there must 'be something in it.'

"Astronauts are familiar with sightings UFOs since they have photographed them on space jaunts.

"How can a figment of the imagination give a trace on a radar screen? Why have military planes of various nations, including Britain, pursued UFOs, sometimes with disastrous results?

"How in this modern era have we lost numerous ships and planes --even a formation of planes--without a piece of tell-tale debris?

"Investigators are baffled even after extensive searches, many have concluded that the disappearances must have occurred instantly."

The group's founder Mr. Roy Lake, of Parsloes Avenue, Dagenham, pledges to treat each claim seriously.

EDITORIAL:

Due to the haste that this issue was put together, your CNK is not up to its usual high standard, and certain items are left out, simply because we cannot trace their whereabouts. The next issue for September, will be a one time whopper, I hope...All the eggs in one basket.

*****This issue was delayed due to the publishing of another book:***** SHAPE OF THINGS TO COME

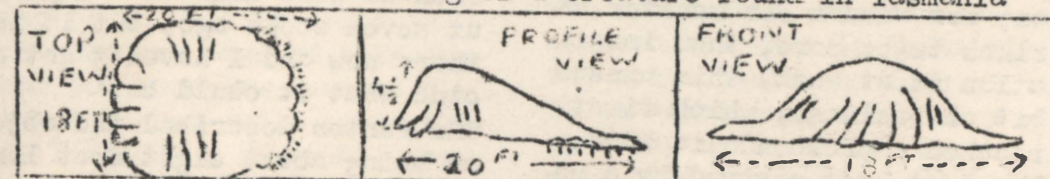

I think it is about time UFO researchers were treated to something really spectacular. I can't tell you what this is, as others might get ideas too, but it is in the shape of a very very special book which due to its highly specialised nature may take me 5 years to complete. If anyone is interested in this, I would like to know. The price of this extra special 1,000 page book on UFOs will be ABOUT £15 and worth every penny. Watch for further news. 22

HAVE WE DESTROYED A CREATURE FROM SPACE ?

IS IT REALLY FROM SPACE? THE TASMANIAN GLOBSTER!

This is a drawing of a creature found in Tasmania

SOURCE: SAGA'S UFO SPECIAL Copyright 1972 by Gambi Publications Inc. 333 Johnson Avenue, Brooklyn, New York 11206 USA.

When a newspaper story on an unknown creature 20 feet long eight feet high, with a leathery hide and "hair" and no mouth, eyes, nose, ears, or bones, appeared in the Hobart, Tasmania, MERCURY, a marine biologist said many such creatures had been found over the years "on land, on beaches, and in the sea",

and "They don't come up from the depths of the ocean: they FALL DOWN OUT OF THE SKY"! His extraordinary statement appeared in only one edition of the paper, but when a SAC correspondent searched for it and behold, there was not a single copy of that edition in any library NOR EVEN IN THE NEWSPAPER'S MORGUE! But

this is not the first time news of a "creature" has been suppressed; Australian scientists and government officials have been squelching such reports for years.

Could it be that the authorities are afraid to let the people know about biological "things" that have been discovered AND BLOWN UP?

The following story about a strange "sea monster"- the Tasmanian Globster-may, to a certain extent at least, be explained by coincidence, but I think its occurrence constitutes rather good evidence that we've got something here that warrants further investigation, for when a sea monster strikes twice more, than imagination is at work. This unusual bit of business, which first reached a crescendo in 1962, has just been revived by a rather peculiar news report from the Island of Tasmania:

THE ADVOCATE, Burnie, Tasmania, Australia; (By Kerry Pink):

"An unidentified sea species object has been washed up on an isolated stretch of west coast beach south of Sandy Cape. And we choose the phrase 'UNIDENTIFIED SEA SPECIES OBJECT' with particular care, following the still well-remembered 1962 episode of the

WEST COAST 'monster' and the worldwide interest it created for a couple of weeks.

"As with the 1962 discovery, the object at present lying half buried in the sand a few miles south of Sandy Cape and was found by Temma pastoralist Mr. Ben Fenton and his stockmen while searching for stray cattle on horseback at the weekend. 'But be darn careful what you say and make sure you don't quote me as saying it is a monster; Ben told me by phone from his remote farmhouse south of the Arthur River last night. 'I don't know what it is and I'm making no guesses-not after the last lot. All I can say is that it wasn't there when we were down that way about seven weeks ago, but it is there now and I haven't got a clue what it could be.'

"Mr. Fenton described the object as being about eight feet long, humped, and with a tough, leather like hide. 'That's what is showing above the sand,' he said. I've got no idea what the rest of it buried in the sand is like, and I don't intend to try and find out. Someone else can do that if they want to. This is a comparatively fresh specimen of whatever it is and probably could still be identified with certainty.'

"Bill Fenton's reluctance to discuss the object or to advance

any personal theories on it follows the still controversial 1962 finding and the publicity it aroused." Large bulky "things"-or "beach monsters"-appear to be exceptionally common around the Tasman Sea. Further, this seems to be one part of the world where they have not all been satisfactorily explained and identified as whales, sharks, or any other known animals. Some of them have not been explained at all; and one suggestion put forward to explain the origin of half a dozen of them is really so unsatisfactory that one feels extremely reluctant to even record it. (Saga then gives mention of two KNOWN animals found on the eastern edge of this Tasman Sea near New Zealand. One was a Beaked whale named now as TASMACEBUS SHEPHERDI found on a beach in 1938. Nothing like it had ever been seen before, two more appeared, and none since, Saga mentioned giant Larva of an eel THREE FEET LONG, when ordinary eels about HALF AN INCH LONG, suggests the grown eel to be 200 feet long. We wonder now if this also suggest that if a monster exists in LOCH NESS Scotland, it could very well be one of these, since photos of the "beastie" looks collike

FRONT COVER PHOTO: G.C.

Cramp, a naturalist who financed the search for the Globster, a TV cameraman, and CSIRO scientists, B.C. Mollison, leader of the expedition, and Max Bennett, as they view a section of the Globster that was brought back to Hobart for scientific analysis.

WHAT MAKES THE "GLOBSTER AFFAIR" SUSPICIOUS IS THE EXTRAORDINARY official SECRECY CLAMPED ON THE WHOLE BUSINESS PLUS ALL THE DOUBLE-TALK FROM THE SCIENTIFIC COMMUNITY, AND, MOST IMPORTANT OF ALL, one sample tested defied analysis and was impossible to identify! Several samples of the creature was tested, and the conclusion was that is definitely was not a whale. On none of these creatures, could they find any mouth, nostrils, or eyes. This is really odd because, if a large animal is found those would be the first things people would look for. How on earth-Or off it-can such huge tough creatures carry on life? They must ingest food and excrete wastes, unless they do both by osmosis; and, if that's so they certainly are something quite unknown, and possibly OUT OF THIS WORLD. (To Be continued in the next issue! PROOF' ITS FROM SPACE?

KOHOUTEK COMET

Where was it?

THIS COMPREHENSIVE ARTICLE BY EDWARD HARRIS, EDITOR, ELYSIAN MAGAZINE, CONTACT INTERNATIONAL USA, COMMENTS BY PATRICK MOORE, FRAS (BRITISH ASTRONOMER) and FULL STORY OF KOHOUTEK COMET BY ASTRONOMER-

GRAHAM W. SHEPHERD

With information Supplied by NOVOSTI INFORMATION USSR.
First, from the Editor:

Were you one of the many hundreds of people all over the world who craned their necks looking for Kohoutek Comet? Well I was! I even had my telescope turned to the area of sky and reported in my other magazine that I had seen it, when in fact what I was observing, was in fact MARS. (Space-Drive magazine Dec 1973). What did go wrong? Where was this spectacular of the age? I rang Patrick Moore to find out.

Editor: Mr. Moore, Can you tell me why we never saw Kohoutek comet?

Patrick Moore: It was visible you know, but not as bright as expected.

Editor: Did you see the official Russian explanation as to why?

Mr. Moore: Everyone is entitled to their own theories.

But why was the comet not so bright? Michael Harris who wrote in Elysian magazine, had this to say before Kohoutek appeared:- "From October to December 1973 you should be unable to miss seeing Kohoutek's comet? It will be so bright as to enable you to see it in daylight! ..It should scar across the sky 35 million miles from earth at 50 miles a second. Kohoutek's Comet has passed our way before...the experts are now certain it last appeared in the time of stone-age man-10,000 years ago."

This means that it will probably be coming back again in another 10,000 years time when CNK is nothing more than dust in the air.

CONTACT(USA) wrote in their newsletter: Another idea concerns Comet Kohoutek, which many feel is more or less responsible for

the state of turmoil which grips the world at this time. It has been suggested that as the comet leaves us, once more to journey through deep space, that there will be a reversal of this unhappy trend, beginning around March!....

What's that got to do with the comet itself we ask? Oh well, everyone to their own thoughts.

NOVOSTI INFORMATION SERVICES Moscow USSR had this to say about the comet:

November 19 1973. The comet discovered by West German scientist Kohoutek has been put under systematic observation by a special expedition in the northern spurs of the Tien-Shan.

JANUARY 21 1974: Moscow scientists carried out observation of comet Kohoutek with the help of a high precision astronomical installation, the world's biggest satellite tracking camera. Having passed the perihelium, the nearest point to the sun, the comet was badly situated for observation from earth. The aurora of its nebula envelope was lost in the light of the evening glow and the bright moon. Besides that, the brightness was absorbed by the dense atmospheric layers near the horizon.

There was another obstacle. At most, the comet had the brightness half that which was expected when it reached the perihelium. There are several points of view on this matter. The scientist believes that apparently this is caused by the peculiarities of the structure of its nucleus. Some specialists believe that when the comet approached the sun, solid particles which are part of the comet's nucleus, blocked gases as a result of ice evaporation and weakened its brightness.

MARCH 18 1974: Soviet physicists have experimentally recreated in the laboratory the mysterious life of the giant Kohoutek comet that, contrary to expectations, almost invisibly streaked across the sky. They proved that the expected powerful flare-up of the comet's tail did not take place because the nucleus of the comet was enclosed in a very thick and strong coat of mail consisting of refractory particles of cosmic dust.

A piece of ordinary ice played the role of the comet's nucleus in the experiment. The experiments with the man-made comet showed that in conditions of intensive light radiation a firm dust crust forms on the surface of the ice nucleus and impedes

the sublimation of the comet substances and, consequently, the forming of the glowing "head" and "Tails". But as the comet approaches the sun pressure in the nucleus may "blow up" the crust from inside, this producing a bright flare up.

Scientists have estimated that in this event the Kohoutek comet could have rivaled a full moon in brightness. However, this year, the scientists believe, such a strong comet had evidently formed on the surface of the comet that internal pressure proved incapable of bursting it."

* READERS ARE INVITED TO COMMENT ON THE ABOVE.

GRAM W. SHEPHERD writes:

If one approached an astrophysicist with the question "What is a comet?" he would probably reply by stating: "A comet is a cloud of meteors, surrounded (at times) by a gaseous envelope, the whole system moving round the SUN in a path having the form of a conic section." This reply seems quite a satisfactory brief analysis, closer examination, however, rapidly reveals many difficulties, this usually being the case with any seemingly 'straightforward theory'. The general scientific views of comets has undergone many revolutionary changes during the past. The first stage, which we may regard as coming to a close round about 1700, was dominated simply by somewhat vain attempts to accurately place these mysterious objects into the general picture of the celestial sphere. Their appearance immediately caused contradiction of any rational explanation. Stars and planets were always seen as definite points of light, with the sun and moon presenting round luminous discs. In contrast the comet was always a diffuse object, without any sharply defined boundaries, their tails were indeed widely variable in extent and form. The very motion of comets caused much puzzlement; they always arrived abruptly and without warning and contravened apparent planetary and celestial motions across the sky. It is hardly surprising mysticism and superstition became to surround comets, even in a scientific way, there were even those who doubted their cosmical connection, alternatively regarding them as a part of the terrestrial atmosphere. The second stage of cometary research progressed rapidly and further with the discovery of the law of gravitation by Newton, thereby making possible the determination of orbits for the celestial bodies. Subsequently the comets' independence of the solar system were found with their moving round the sun in paths having the form of conic sections. Halley (1656-1742) and Olbers (1758-1840) took advantage of this new tool for cometary prediction and applied extensive research into many comets and the determination of their orbits. (Exact details of Kohoutek comet by G.W. Shephard in next issue, out of space).

ENIGMA OF THE MISSING

OVER THE YEARS, AIRCRAFT, SHIPS, and PEOPLE HAVE MYSTERIOUSLY VANISHED WITHOUT TRACE FROM THE FACE OF THE EARTH, NEVER TO BE SEEN AGAIN. WHERE DID THEY GO? AND HOW CAN WE FIND THEM AGAIN? COSMOLOGY NEWSLINK, LOOKS AT THE SITUATION AND WILL BE SUGGESTING WAYS IN WHICH THE MISSING COULD POSSIBLY BE FOUND, IF FEASIBLY PROBABLE. Compiled by the Editor.

We start by looking at the reports of old. This story which is believed to be absolutely true, comes from THE ALLENDE LETTERS book 1968 page 52 by Stephen Yankee and runs like this (Shortened due to space)

There are thousands of cases of unusual disappearances, which have been reported.

Some of these reports to be sure, have very human explanations. But what about David Leng? One sunny day he was out plowing a field on his land when, in the sight of five witnesses, he walked over a small knoll. He was never seen again—but he was HEARD again! Two days following his bizarre exit from this place, the grass growing on the spot where Leng vanished turned a peculiar shade of brown. And for two years afterwards, people walking near the knoll could hear a faint voice crying, "help me! Help me! That was in the 1880s. True? Yes. The story has been authenticated. And what happened to young Oliver Thomas, the 11-year-old son of Owen Thomas, a farmer living near the small town of Rhayader,

Wales? The night before Christmas of 1909, the lad walked out of the house to fetch a pail of water from the household well, just before 11.00 p.m. Young Oliver had performed this task scores of times before—but he was never to do it again! Scarcely ten seconds had passed after Oliver closed the back door when those in the kitchen were startled by his scream of terror. The family and guests ran into the yard, and with the light from a lantern, the startled Thomases saw their son's footprints in the snow, trailing across the yard towards the well. The footprints extended about 75 feet then abruptly ended. It was what they heard, though, that really frightened them. Oliver's shrieking voice was yelling "Help! They've got me! Help! Help!" There was an inquest, and a local minister, his wife the local veterinarian, AND an auctioneer, testified.

No one knows to this day where the missing are. If the causes were simply kidnap by an unknown force then there is nothing CNK or anybody else can do yet, until our technology meets theirs on their level one day.

However if the disappearances were by some sort of teleportation ray, then there may be a slender hope that this magazine, can devise or formulate some workable suggested equipment, which may lead to tracing the missing boats, ships, planes, and people in the future. A rough sketch plan was drawn up during the printing of this article, for the type of equipment needed to reverse the process of telepotation and give a lead into where the missing are. This will be published in future issues along with the circuitry (if any). Editor. *Note. It is this magazine's purpose to seek out and find the answers to all earth's mysteries. Due to lack of space, we conclude this article on the enigma of the missing, and will publish more about the Bermuda Triangle soon.

FOOTNOTE: Somewhere, I read a report of a Frenchman who witnessed a jet being captured by a huge UFO and taken swiftly away.

UFO PROPULSION

CONTINUED

Ever since they have been seen people ask- HOW DO THEY WORK? Well, maybe for the first time in any UFO magazine, CNK may find and present the needed clues for the benefit of researchers. Continuing...

According to the book FLYING SAUCERS 1971, when Kenneth Arnold saw his 9 disc-shaped flying machines over Mount Rainier on 24 June 1947, he "carefully inspected the circular craft and as the last one went by and faded into the distance; it was during this scrutiny that he saw it: the lettering on the underside of one of the craft- XF5U-2. The tension seeped from Arnold's body as he realized what he had just witnessed: a flight of nine experimental aircraft, built and flown by our own military establishment. So a modern day fable was born. It has been blown up out of all reasoning, simply because our government tried to keep its design a secret for defense purposes. Of course this incident did not happen exactly as related, but is how it WOULD HAVE HAPPENED had Kenneth Arnold got a better look at those "flying saucers."

According to "FLYING SAUCERS" the UFO mystery can be cleared

up with three simple facts: (1) So called flying saucers do indeed exist; (2) they are not visitors from another planet; (3) they are part of an entirely new defense system being developed by the U.S. government.

CNK says RUBBISH to the above, of course there ARE experimental aircraft of circular wing design in test, from reports we get, yes this is true. But how does E. Frederick Schrafft explain away reports of robot like creatures dragging men aboard their craft. I expect he would say that they too are some secret government project. What a lot of hooey!

But to continue on our search for anti-gravity systems we stick with Mr. Schrafft's research as he says of the above: "As hard as this is to believe, it is nevertheless, TRUE." Mr. Schrafft goes on to say that it was only in the mid-twentieth century that we started to see round or disc-shaped UFO, when before that all sightings were mainly of cigar-shape. He puts it down to inventors working on balloons and prototypes etc. The advent of the disc type machine states Schrafft started in the 1946-47 period when they started to appear. To start the search for scientific proof that circular aircraft were possible,

we must return to the Ken Arnold sighting.

Back in 1941 Charles H. Zimmerman, a Chance-Vought aeronautical engineer, designed a strange circular aircraft called Experimental Model Number V-173. Its test pilot, Boon Guyton, promptly named it the "Flying Flapjack" because of its saucer-like shape. Not much has ever been told about that first flight, probably because we were in the throes of pre-war tension, and more important events were making the headlines.

(TO BE CONTINUED IN NEXT ISSUE)

NEWS: A SPACE AND SCIENCE CONVENTION TO BE HELD ON 28th and 29th June 1974 at the Anaheim Convention Centre at Anaheim, California. Open to the general public. Details from: Dr. Frank E. Stranges 7970 Woodman Avenue, Van Nuys, California 91402.

We were invited but unfortunately impossible to attend this time. Instead I am sending a taped message which I hope will be played out-Ed.

Janet Busell asks: DO YOU REALLY CARE ABOUT THE ENVIRONMENT? If so, you are invited to join the PETE BUELL ECOLOGY COMMITTEE 15, Parkside Estate, Putland Road, Hackney, London, E8 3JY (Encl. SAE) or IRC
